

# Sentence Calculation

2021-01-07 08:53:00

---

## 13 years

This sentence was calculated in the following manner:

### Initial Sentence Frame:

Robbery can be qualified in three main ways. All of these hold a maximum sentence length of 20 years. This cannot be exceeded by any further developments under Art. 40 ciph. 2 StGB. If the robbery was qualified in more than one way, then the highest sentence frame holds.

As described in Art. 140 ciph. 3 StGB, if the offender commits robbery as part of a group organised for the purpose of robbery, or if the offender represents a particular danger in the way the robbery was committed then the resulting sentence is from 2 to 20 years.

### Modified Sentence Frame:

No additional crimes are included in this sentencing, leading to no increase in the penalty frame.

### Segment of Sentence Frame:

*Not applicable in this sentence.*

From the following questions the perpetrators actions placed them at 61% of the sentence frame. This is a score of the severity of the violation or endangerment of the legal interest concerned. This leads to an unweighted sentence of 13.076923 years within the frame 2.0 to 20.0 years.

### Increases and/or Decreases to Sentence:

The offender actively hindered or disrupted the authorities, resulting in a 10% increase in the sentence. This is estimated in accordance to constant jurisprudence.

The offender has no past record, this results in no increase to the sentence.

As the offender has no one dependent on their care, no reduction is made to the sentence.

Due to the perceived impact of the punishment having normal, or below average impact on the offender, no reduction is made to the sentence.
